DR. E. L. POTTER HERE; HOTEL PLANS PROGRESSING.

W. T. Hadlow, Builder of the New Clarendon Is in the City Today.

Dr. E. L. Potter arrived in the city Tuesday from New York, after a three months stay in the East. Mrs. Potter arrived in Jacksonville yesterday and will come down in the new Pope-Hartford car today.

Dr. Potter, in an interview today, said: "I am very glad to get back to Daytona and vicinity and am more than pleased to see the improvements that are so rapidly being made. California is a great State and I am very much pleased with my purchase out in that State but so many years of residence in this delightful section have caused ties to be made that can never be broken. This to me will always be home and I expect to spend at least the winters here."

"In regard to the New Clarendon I wish to say that the hotel will be built if the capital that was ready in the spring is still available. The builders and other parties interested are in the city and we are rapidly getting matters in shape to sign up all necessary contracts. If nothing happens work will be started within sixty days and the house will be opened on Jan. 1st, 1911. The house will be unique in every way and I have had assurances from former patrons that every room will be taken on the opening day."

"The interests of Daytona are my interests and I feel that my interests in the New Clarendon are the interests of every one in this vicinity."

Dr. Potter will remain here until the Clarendon arrangements are all made and then will return to Los Angeles to look after his large interests there. He will keep in touch with the building here and will probably make frequent trips between California and Florida.

Tendered a Reception.

The reception tendered Rev. and Mrs. H. H. Mallinson Tuesday evening at the Epworth League hall by the Ladies Aid Society of the M. E. Church was a very pleasant social event. Those receiving were Mrs. Herman G. Porter, Mrs. G. H. Gardiner, Mrs. I. J. Price and Rev. and Mrs. Mallinson.

The hall was tastefully decorated with roses, ferns and other greenery and refreshments, consisting of punch and cakes, were served by Mesdames Shear and Shoemaker.

During the evening music was furnished by the Pythian Male Quartet and Mrs. Geo. A. Main gave several choice piano selections.

In response to an invitation by Rev. Herman G. Porter, district superintendent, Rev. Mallinson made a brief but pleasant address. The reception was largely attended.

Will Install Linotype Machine.

W. W. Carter, proprietor of the Halifax Steam Printing House, in order to keep pace with his business, has ordered a Junior Linotype machine for use in his job department and for work on the Halifax Journal. The machine is to be delivered the first of next month.

Services by the New Pastor.

Rev. H. H. Mallinson, the new pastor of the First M. E. Church, conducted services at that church both morning and evening last Sunday. Both sermons were strong and interesting, that of the evening being particularly impressive. Mr. Mallinson is a minister of marked ability and of winning personality and his success in church work in this city is already assured.

EDUCATIONAL RALLY AND CORNER STONE LAYING

Will Take Place at Daytona Monday Afternoon, November First at Two O'clock.

The corner stone of Daytona's magnificent new school building will be laid with appropriate ceremonies Monday afternoon, Nov. 1, at 2:00 o'clock. The exercises will be conducted by Halifax Lodge, No. 51, F. & A. M., under dispensation from the Grand Lodge, and will be held at the school grounds on Bay street at the end of Palmetto avenue.

Immediately after the ceremonies the Educational Rally, promoted by State Superintendent Holloway, and George M. Lynch, of Gainesville, will be held in the Armory. The primary object of this rally is to awaken interest in public education, to devise ways and means of supplying the schools with proper apparatus and libraries and to make Florida, educationally, rank first in the southern states.

Prof. Holloway and Major Lynch will deliver addresses with talks from others interested in educational matters.

It will be a big day for education in Daytona and everybody should attend.

The New Drug Store.

As will be seen by the notice elsewhere in this issue, M. B. Church will open his new drug store next Wednesday in the recently completed Gardner building on South Beach street.

The opening of the store has been delayed some weeks by the non-arrival of some of the fixtures, but everything now being at hand, Mr. Church is satisfied that he will be ready for public inspection by Wednesday. Mr. Church will carry a full stock of all goods to be found in an up-to-date drug store.

The store is richly finished in golden oak, this beautiful wood harmonizing nicely with the wall tint of green. Several fine plate glass cases add to the setting of the store, which is brightened and enriched by magnificent mirrors in the rear of the soda fountain and also forming the division between the main room and prescription department, beyond which is a large store room.

The soda fountain, called the American Innovation, is a beautiful combination of marble and German silver and is probably the most sanitary fountain made. Its attractiveness is enhanced by the handsome mirror behind it, which adds its enchantment to the effect.

The general impression of the store is one of rich simplicity, everything quiet in tone yet of the very best. It is in fact a handsome store furnished in most excellent taste.

It is needless to say that the public will receive every courtesy at the hands of Mr. Church and his charming wife who will assist him in the business.

Try This In November.

Thousands upon thousands of families who have not been regular eaters of Quaker Oats will begin on the first of November and eat Quaker Oats once or twice every day for thirty days of this month; the result in good health and more strength and vigor will mean that every other month in the year will find them doing the same thing.

Try it! Serve Quaker Oats plentifully and frequently for the thirty days of November and leave off a corresponding amount of meat and greasy foods. You'll get more health, more vigor and strength than you ever got in thirty days of any other kind of eating.

While you are trying this see that the children get a full share. The best food for them. Quaker Oats is also packed in hermetically sealed tins for hot climates; keeps in perfection.

The Books Have Arrived.

The "Little Masterpieces Library" so kindly donated by Mr. Gamble, is now ready for the Daytona people to read.

This Library consists of four charming volumes, bound in red cloth, with gold backs, containing ten thousand pages and twelve hundred separate selections—prose, poetry, fiction, science and autobiography. The genius of centuries is compressed into these volumes.

For nine years the Review of Reviews devoted its energies to this work aided by such men as Hamilton Mabie, Henry Van Dyke, Bliss Perry, Thomas Masson and George Isles.

Here is a book to fill any mood—a laugh for your lighter hours, poetry for quiet days, philosophy for your thoughtful hours and stories for any hour.

Here is boundless beauty and wealth; here is the essence of all culture.

Let your mind keep good company and it will have the tone of that company.

Daytona is to be congratulated upon having access to this storehouse of knowledge and power. *o

Preparing For Work.

The dredge Klondike was moored at the foot of Bay street Thursday, while she was being rigged with a new hoisting cable and blocks purchased in Jacksonville recently by her owners, Melton & Shear. After a little repair work on the bulkhead at Bay street and the replenishing of the shell pile at this place for use on the city streets the dredge will repair to the City Island and again take up the work there, probably some time next week.

An Erroneous Report.

Some of the New York newspapers and several hotel papers have published statements that the popular Ridgewood Hotel had been sold and other statements that it had been leased for the coming season. The Gazette-News is pleased to state, however, that all the statements are erroneous, as a letter from Proprietor E. D. Langworthy states that the hotel will be run as usual with himself at the helm. Mr. and Mrs. Langworthy are now in Boston but expect to arrive in Daytona before long.

All Who Would Enjoy

good health, with its blessings, must understand quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

HUMAN ARM FOUND BY A NEGRO BOY NEAR KINGSTON.

Speculation as to Whether the Member was From the Body of a Man or Woman.

While roaming around in the woods west of Kingston Thursday afternoon Ether Ward, a young colored boy, picked up a right arm of a human body. He carried it to his home at Waycross and yesterday morning J. D. Maley and a Gazette-News representative went out and got it. An effort was made to get the boy and take him to the scene of his find in an endeavor to locate the balance of the body.

Four or five years ago a man, Myers by name, mysteriously disappeared, and it is thought by some that the arm may be from his body. Others, however, contend that the member is in too good a state of preservation to have been exposed for so long a time.

Dr. G. A. Klock, who examined the arm, states it to be that of a female, who was evidently at least twenty years old.

The member is now at the store of the Bingham & Maley Company.

Surprised on Anniversary.

Mr. and Mrs. James Kincaid had a delightful surprise party given them on the occasion of their twelfth wedding anniversary Wednesday night.

One of the boys was with Mr. Kincaid at the store in the afternoon and it was arranged that Mrs. Kincaid and the other son be delayed by Mrs. Geo. A. Main, of whom they have been taking music lessons, at her home on West Magnolia avenue as late as possible in the evening.

When they reached home they found their residence a blaze of light and decorated with Japanese lanterns, while some twenty-five or thirty friends and neighbors were waiting to receive them.

Mrs. Mary Troy, Mrs. Kincaid's mother, served dinner for the assembled company at the Troy House, adjoining the Kincaid residence and a delightful time was enjoyed by all. Mrs. Kincaid received a number of nice presents during the evening.

Scores of Daytona Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow: Urinary trouble, diabetes.

Doan's Kidney Pills cure them all. Daytona people endorse our claim.

James M. Osborn, Ridgewood avenue, Daytona, Fla., says: "I have no hesitancy in recommending Doan's Kidney Pills, as I have found them to be a splendid kidney remedy. Some time ago I was having severe pains in my back and loins, coupled with an annoyance from the kidney secretions. I had heard Doan's Kidney Pills so highly recommended that I concluded to try them and procured a box from Hankins' drug store. They did their work very effectively and before long rid me of the back ache and pains across my loins. They also strengthened my kidneys and stopped the annoyance from the irregularity of the secretions."
